Brief Summary

I am a charismatic and engaging MultiMedia Journalist currently working at WSAV News in Savannah, Ga. I received my B.A. from the University of South Carolina with a major in Broadcast Journalism and a minor in Sport & Entertainment Management. I'm a creative storyteller with a distinct passion for all things sports. Going far beyond the national scoreboards, I strive to bring the local news that matters to my viewing area on a daily basis.

Media Experience

Mar. 2021 to Present

Reporter, Anchor & Producer, WSAV - Savannah, Ga.

During my time at WSAV I have set out to cover the most pressing and meaningful stories that Coastal Georgia and the Lowcountry of South Carolina has to offer. Never shying away from an assignment, my role at WSAV has allowed me to gain invaluable media experience in the ever-changing life of a MultiMedia Journalist. Shooting, editing and turning daily stories both on-air and online has become a routine. On top of the daily stories, I also actively fill-in as the weekend evening Anchor and Producer and have since late March. While I've covered a wide range of stories during my time serving the Coastal Empire, my lifelong passion lies in the sports department. From local High School's, to the state's Universities, backroad tracks and everywhere in-between, it thoroughly excites me to bring our viewers the sports news that they care about every single day while digging to find interesting longform stories and angles others may have missed. In the past year and a half in Savannah, I've taken advantage of every opportunity to better myself on-air and in the field and believe that I have gathered the necessary experience to produce consistent and proven results in my next endeavor.

Aug. 2020 to Dec. 2020

Carolina News and Reporter, Univ. of South Carolina

Reporter, anchor and producer for the award-winning Broadcast Journalism capstone program at the University of South Carolina. Daily shows are produced live at 4pm, Monday through Friday. Daily meetings are conducted at 9am. Reporters for the day must shoot and edit their stories while keeping a strict deadline of 3pm in mind. I'm confident in my experience both on-camera and in studio production, as well as editing video and producing. I can be trusted to meet daily deadlines and have ample experience working with ENPS and Premiere pro, among other editing programs. Representing the University as a 2020 Hearst Award finalist, Carolina

News has helped provide me with ample experience in a newsroom setting comparable to that of most local level news stations.

January 2020 to Dec. 2020 **Columbia Fireflies**, Video Production Team

Member of the video production team for the Columbia Fireflies, a single-A minor league affiliate of the Kansas City Royals. Assisted in taking game film as well as filming large-scale events like concerts and other live productions.

Skills

Proficient in Adobe Premiere, ENPS, WordPress, AP Style, LiveU technology, Microsoft Office, Photoshop.
